**Re: Removal Action – Final Report
Standard Chlorine Chemical Co. Inc. Site
Kearny, New Jersey**

Dear Ms. Staiger and Ms. Hess:

In accordance with my discussion with Kim Staiger of the U.S. Environmental Protection Agency (EPA) on December 20, 2010, the Final Report for the Removal Action at the SCCC Superfund Site located in Kearny, New Jersey (previously submitted to EPA on November 22, 2010) has been revised to address a comment from the EPA. The Report was prepared and submitted pursuant to the Paragraph 47 of the Settlement Agreement and Order on Consent for Removal Action 02-2010-2012 (Agreement and Order) among the U.S. Environmental Protection Agency (EPA), Standard Chlorine Chemical Co. Inc. (SCCC) and Beazer East, Inc. (Beazer). This report describes and documents the work performed to close and seal the openings of buildings on the eastern portion of the SCCC Site.

As documented in the Final Report contained herein, the work prescribed in the Order and Agreement is 100% complete and fulfills the requirements and intent of the Agreement and Order to mitigate any potential for existing and future exposure or release to public health and welfare and the environment from materials that may be present inside the former process buildings.

In accordance with Paragraph 91 of the Order and Agreement, this Order and Agreement shall be terminated by EPA upon its written approval of the Respondent's Final Report and certification.

Removal Action – Final Report
Standard Chlorine Chemical Co. Inc. Site
Kearny, New Jersey

December 21, 2010
